

Article: ARMCHAIR

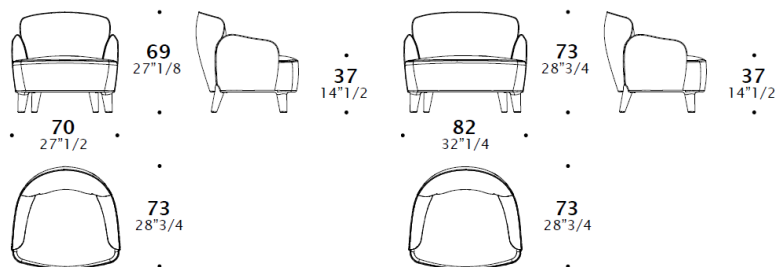

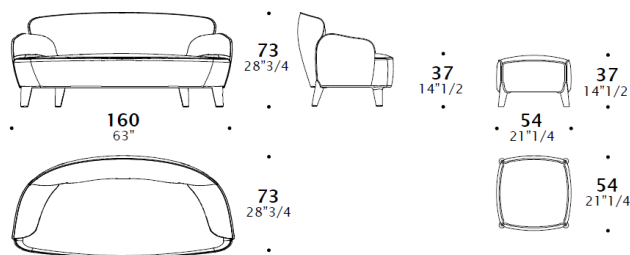

A family of products suitable for a wide variety of contexts: living, contract, but also office.

The seat, backrest and armrests are independent of each other, so as to be dressed and assembled in different ways and be so adaptable to different contexts.

TECHNICAL CHARACTERISTICS

Armchairs, sofas and pouf with removable cover in fabric or fixed cover in leather with load-bearing structure in beech and poplar wood and spring system with elastic bands.

Upholstery in expended density-differentiated polyurethane and dacron. Feet upholstered with fabric.
